

# NORTHWEST Eco Building Guild™

Advancing a 200-year perspective on the built environment

**From Watershed to Woodshop**

## Forest Stewardship: The Value of Buying Local Wood

With Kirk Hanson, Northwest Certified Forestry

Where does your wood come from?

Ever walked through the forest that produced your building materials?

Join us to explore the economic, ecological and social implications of how we purchase wood products. Learn about the growing availability of Forest Stewardship Council (FSC) certified wood products in the Northwest. FSC wood stands for sustainably managed forests, local jobs and wood products manufacturing, and the lowest carbon impact of any building material.

Come for the *Mini-Expo* of Local FSC wood products businesses!

## Thursday, February 18

**6:30—8:30 pm**

Program begins at 7pm.

Please arrive early to order from the menu

**~Urban Onion Ballroom — 116 Legion Way SE**  
(downtown Olympia, across from Sylvester Park)
